9490842494

SUMMARY

Computer Science student specializing in Data Analytics with strong knowledge of Python, SQL, and data visualization tools. Skilled in data cleaning, analysis, and building data-driven solutions through real-world projects. Passionate about leveraging data to solve real-world problems and support decision-making.

TECHNICAL SKILLS

- Programming: Python, Java, C
- Data Tools: SQL, Excel, Tableau
- Libraries: NumPy, Pandas
- Concepts: Data Analysis, Data Visualization
- Machine Learning

PROJECTS

Customer Churn Prediction

Developed a machine learning model to predict customer churn using Python, Pandas, and Scikit-learn. Performed data cleaning, feature engineering, and exploratory data analysis (EDA) to identify key factors influencing churn. Implemented classification algorithms such as Logistic Regression and Decision Tree. Evaluated model performance using accuracy and confusion matrix. Generated data visualizations to support business decision-making.

Sales Data Analysis & Forecasting

Analyzed sales data using Python, Pandas, and NumPy to extract actionable business insights. Performed data preprocessing and time-series analysis to identify trends and seasonal patterns. Built a forecasting model to predict future sales based on historical data. Created visualizations using Matplotlib to highlight performance metrics. Delivered insights to improve revenue planning and decision-making.

EDUCATION

Vishnu Institute Of technology	2024-2028
• Computer Science and Engineering(Artificial Intelligence and Data Science) • CGPA : 9.28/10	
Sri Chaitanya Junior College ,Guntur	2022-2024
• Intermediate • Percentage : 98%	
Chaitanya Bharathi High School	2021-2022
• 10th class • Percentage : 93%	

ADDITIONAL INFORMATION

- **Certifications:**
Python_Certification : [Infosys Springboard](#)
- **Hackathon Achievements**
